PreK - Grade 2 Class Learning Map Visual Art

skills mastered

school

grade

teacher

The Spiral Learning Map assesses the class's progress in Visual Arts. PreK and K teachers will begin marking the "mile markers" closest to the center of the Spiral. 1st and 2nd grade teachers will highlight the mile markers that their classes have already learned and begin moving outward from there. The Rainbow Charts take the Spiral's mile markers and expand them into lessons. The Rainbow Charts will thereby show an obvious skill

Contribute to Texture group projects & discussions Recognize texture in works Choose colors based on aesthetics Use color to show mood & emotions Use work or cool color schemes Recognize specific colors in paintings Create depth by varying the size Repeat line, dot, and shapes to Lighten and darken colors mimic texture Stomp impressions into clay interactions Combine textures Participate in exhibits internal in social Make Secondary colors Make texture "rubbings" Identify textures Feel differences Recognize & name ' Show healthy (Tongh smooth) redationships creating group murds Use proximity to group like (line,) Analyze and arrange objects , Recognize shapes in Make organic/geometric shapes hovement/motion torous ar more play with line... making shapes Cut out shapes Produce basic shapes in clay So WHAT THE SECOND OF THE SECO Repeat shapes making patterns ^{Oraw}line designs Ston our loop to and do th Combine & overlap shapes Create emphasis areas Scribble freely Unity art by repeating elements

Colla Group marks & play with line motion Make & identify the the characteristics of line Combine organic/geometric lines Show correct size relationships Collect a portfolio of work Copy & create repetitive patterns Show enotion & facial expressions is in lines Recognize line in arr his tony linages difference between grades and help the teacher to locate and lead her class through the mile markers toward the outside of the Spiral.
